CM BOOSTER

GRUNDFOS CM DOMESTIC WATER PRESSURE BOOSTER PUMP

THE MOST ROBUST PUMP DESIGNED FOR WATER PRESSURE BOOSTING

The Grundfos CMB with PT is a compact booster pump designed for domestic and light commercial use. The booster unit consists of a Grundfos CM pump with stainless steel hydraulic components and a pressure tank.

The CM pump is supplied with a pressure tank for even distribution of water pressure. When the water demand increases, there will be a pressure drop in the pipeline from the pre-set level. The pump automatically starts till it reaches pre-set cut-off pressure. The systems are available with 24 Lts & 60 Lts pressure tank.

CONSTRUCTION

- Electro-coated cast iron parts free from corrosion
- High efficient motor
- Horizontal multi-stage centrifugal pump
- Long life components are of corrosion and wear resistance stainless steel

APPLICATIONS

- Mains boosting
- Household water supply
- Boosting from above ground water tanks

FEATURES

- Silent operation, compact design and highly reliable
- Wide performance range
- Liquid temperature from 20 °C up to 120 °C (pump only)
- Built-in thermal protection
- F class installation
- 100 Start / Stop Per hour
